Covid-19 Case Protocol

We will coordinate with local health officials. Once learning of a COVID-19 case in someone who has been in the school, we will immediately notify local health officials. These officials will help determine a course of action for our program.

We will dismiss students and staff for 2-5 days. This initial short-term dismissal allows time for the local health officials to gain a better understanding of the COVID-19 situation impacting the school. This allows the local health officials to help the school determine appropriate next steps, including whether an extended dismissal duration is needed to stop or slow further spread of COVID-19. This time will also allow for deep cleaning.

If there is a positive case of Covid-19 we cannot disclose who the person is.
